CORE COMPETENCIES

- **Information Technology & Software Solutions:** Delivering advanced technical infrastructure and custom software applications.
- **Operations & Program Management:** Maximizing mission efficiency through expert oversight and project execution.
- **CMMC Pre-Assessments:** Preparing organizations for Cybersecurity Maturity Model Certification compliance.
- **Strategic Talent Acquisition:** Recruiting and retaining highly qualified, experienced professionals.
- **Risk Mitigation & Cost Optimization:** Providing low-risk, best-value solutions for public and private sectors.

DIFFERENTIATORS

- Prioritize and Ensure Customer Satisfaction
- Ability to Find Quick and Efficient Solutions
- Collaborative Team Effort to meet Company's Mission and Goals

PAST PERFORMANCE

- **High-Security Federal Infrastructure:** Successfully collaborated with top-tier defense contractors (Harris Corporation and Lockheed Martin) to deliver a proof of concept for the U.S. Air Force. Controlling and monitoring satellite control node equipment demonstrates your ability to work within highly regulated, high-security, and mission-critical environments.
- **State-Level Compliance & Modernization:** Implementing the Withheld at Source System (WASS) intranet for California's Franchise Tax Board (FTB) highlights your capability to handle complex financial data, strict state compliance rules, and internal secure workflows.
- Several years of high-impact performance in Medical Device Territory and Project Management delivering reliable, measurable results in complex, regulated environments
